### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The claims of reissue application 10/421,463, to which this present application is a divisional, have been transferred to this application (the original reissue application) in response to a restriction requirement that was previously made herein. The divisional presented claims that were non-elected in this application. When the claims of the '462 were allowed, they were transferred to the instant application so that all the claims would issue together (and to avoid this application becoming a no-defect reissue containing only the original claims). The parent then was expressly abandoned.

The primary reason for the allowed added claims is the step of combining the stabilizing system in the emulsion compositions as claimed, and the method as claimed of adding the components (a retinoid) in a oxygen depleted atmosphere.

The information disclosure statements (IDS) filed on 06 January 2004 and 01 March 2004 have been considered herein and initialed copies are attached for applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
